

GenWiz

AI FOR HIGH IMPACT

Helping enterprises **unlock the power of AI** through a truly holistic AI capabilities with the focus on enabling business's growth essence in the age of digital – AI, Data, Analytics

PRIVATE AI AT YOUR PACE AND CONTROL

01 On-Premises AI Processing

Achieve complete data sovereignty. The AI learns exclusively within your secure infrastructure, protecting your most valuable assets

02 Custom Model Training

AI engine learns exclusively from your organization's data, terminology, and processes, creating models that understand your business context

03 AI Management & Reporting

A centralized platform for managing AI agents, knowledge bases, security controls, and enterprise's AI and API integrations with real-time status reporting and dashboard

04 Multi-agent Framework

Build a flexible multi-agent system that deploys specialized AI agents across various business function such as finance, HR, administration, and customer-facing unit

05 Cost-efficient Multi-AI model

Balance performance with cost efficiency with GenWiz's intelligent prompt complexity routing

06 Secure AI Workflow

End-to-end encrypted processing pipelines that handle sensitive data while providing AI capabilities like document analysis, automated reporting, and intelligent search

07 Secure API Gateway

Secure endpoints for integrating private AI capabilities into existing enterprise applications and workflows without exposing underlying data or models

08 Enterprise-grade Security

Zero-trust architecture with role-based access controls, comprehensive audit logging

THE DDLG ADVANTAGE

End-to-end Solution

Unparalleled Thai NLP

AI Expertise

Security & Compliance

Rapid Deployment

Scalability & Flexibility

Tangible Business Outcome

GenWiz Constellar

— Connecting Intelligence,
Illuminating Possibilities —

An orchestration of AI capabilities into powerful AI solutions with the focus on helping business navigate the ever-expanding AI space and create tangible business results

GenWiz AI FOR HIGH IMPACT

GenWiz for Ability to Generate

Automatically generate high-quality outputs that match your requirement

GenWiz Trusted Virtual Advisor

Conversational AI, personalized

GenWiz AI for Analytics

Move the intelligence needle from Descriptive to Predictive

GenWiz for Knowledge Discovery

Unlock hidden insights from organization's internal data and knowledge

GenWiz for Workflow Automation

Automate to elevate your operations

GenWiz Lens

High accuracy, AI-powered text and character extraction

AI for Data Management

Automate and "intelligently" your data management process

Intelligent Driving Force

Digital Dialogue is a technology company that helps businesses build their digital growth engine powered by the Intelligent Driving Force of innovation: the convergence of data, AI, and human ingenuity.

We transform complexity into capability. Our mission is simple: to democratize advanced technology so every business can harness the power of data and AI. Through intuitive low-code/no-code platforms, we turn sophisticated data management and AI technology into tools anyone can master, regardless of technical expertise.

Our comprehensive software and solutions suites include trusted AI solutions that accelerate growth, big data management platforms that sharpen decision-making, data-centric security solutions that protect with confidence, and sustainable technology that drives responsible business.

With award-winning capabilities, globally recognized solutions, a team of highly-skilled talent, a proven track record across industries, and powerful technology ecosystem, DDLG empowers businesses of every size to achieve transformative results: accelerating revenue growth, sharpening decision-making, optimizing operational excellence, driving positive business impact, securely and confidently. Because when human creativity meets the power of data and AI through accessible technology, the Intelligent Driving Force transforms potential into performance.
